Thermo Structured Surface (TSS) features wood-grain decorative papers that are treated with melamine resins under heat and pressure. The resulting slab doors have a unique, textured surface with the feel of wood in a durable, easy to clean package.

Designers appreciate the flexibility of TSS products, and often mix two or

more finishes in a design or combine with options from the Curated Surfaces Collection, as seen above.

TSS is offered in our Millennia (custom) and Katana (value) full access frameless lines. Visit our website to see color and door style options available in each line.

Metro and Trinity are available in Katana.

Corson, Tiburon and Pinnacle are available in Millennia.
